THE DAY IN DISTRICT COURT

District court resumed its labors this morning and has been grinding most of the day on the case of J. L. Perlette of Steedman charged with burglary. The case will probably go to the jury late this afternoon.

The following cases were dismissed: Andy Morris, perjury; Bone Hardin, perjury; Melvin Crumley, manslaughter. The case of Robert Perdue, charged with robbery, was continued.

\$175. FREE \$175.

Owing to the unfavorable conditions in general I have decided to make you a saving in jewelry, silverware, cut-glass, watches, diamonds. I will also give away an elegant piece of hand-painted China absolutely free every Saturday night at 8 o'clock, giving tickets with every 25c purchase on anything in my store. Then on the 24th day of December, 1911, I will also give away a

\$75.00 DIAMOND RING

Besides a baby ring will be given also every Wednesday night at 8 o'clock. All ticket numbers are good to the last. All goods marked in plain figures.

"OUR FOUNTAIN IS STYLE ALL THE WHILE"

WILL AID IN HOLDING COTTON

New York Bankers Agree to Advance
\$50,000,000 to Enable Farmers to
Hold for Better Prices.

New York, Nov. 21.—New York bankers who have been conferring here for the last few days with representatives of the governors' conference and the Southern Cotton congress announced this afternoon that they had raised a fund of \$50,000,000 to be placed immediately in the cotton belt states for the purpose of handling the cotton crop of 1911 and enabling growers to participate in any raise in the market.

The negotiations were conducted on behalf of the south by Governor O'Neal of Alabama, Senator Bailey of Texas, who has been advising his colleagues as to the legal aspects of the proposition; E. J. Watson, president Permanent Southern Cotton congress and commissioner of agriculture of South Carolina, and Clarence Ousley of Fort Worth, Tex., representing the governor of his state.

The bankers who will furnish the fund, according to the statement, are headed by Colonel Robert M. Thompson of the brokerage firm of S. H. Pell & Company of this city. The financial support of several of the strongest banks in New York has been given to the plan, the statement continues.

Advance for Growers.

The plan proposed to advance the growers \$25 per bale on his cotton based on the market value at the time of the loan. No interest will be paid upon the loan, the only charge

SMITH

Has Moved to Townsend Avenue

being \$1 a bale, which is regarded as a legitimate minimum charge for expense of grading and handling. The cotton is not held, nor taken from the channels of trade, but is placed at the best advantage. The grower is given the right to designate the day of sale prior to January 1, 1912, and will participate in any advance in price to the extent of three-fourths of the rise of the market.

The details of the plan are yet to be worked out. It has been decided, however, to place the fund through state committees named by the governor or commissioner of agriculture of a state, and these committees shall be empowered to sell when cotton reaches 12 cents and compelled to sell when cotton reaches 13 cents, regardless of advice from the growers. Provision against any violation of the Sherman anti-trust law is contained, the promoters believe, in a clause empowering each committee to name the day of sale in event the market climbs higher.

Everything depends upon acceptance of the plan by the individual farmer in connection with his pledge to reduce acreage the coming year.

Interurban at Sulphur.
Sulphur, Okla., Nov. 21.—Terms have been proposed and agreed upon by which the Rapid Transit Interurban Railway will begin building its line from Tecumseh through to this city immediately. J. W. Saxon, president of the company, closed deals with local interests by which the railroad company is to get a franchise over all the streets in the city, to furnish lights and power to its customers,

COTTON RECEIPTS 9,408 BALES

The county yard has received 8,352 bales of cotton to date, and the round bale gin has turned out 1,912, or the equivalent of 956 square bales making a total of 9,408 for the season. With fair weather, the figures will reach 10,000 within another week.

The total receipts of the county yard last year were 9,238 bales, with about 1,100 to add from the round bale gin. All told the receipts for the present season are within 800 bales of all last year, showing that the yield around Ada is much better than was first thought possible. Ada is one of the very few Oklahoma towns whose receipts are above those of 1910.

The price is changed but little from the prices that have prevailed for the past three weeks, 9c being the very top notch.

NEGRO SUSPECTED OF BURGLARY RELEASED

After an examination the four negroes arrested Tuesday on charge of robbing the cash drawer of the Katy depot, were discharged, there being insufficient evidence to hold them. They claimed that they had been engaged in a quiet game in the pool hall and had not been out of the house. They were then taken to the police court where three of them paid fines for gambling.

grounds for a depot, power house and car barns, bonus of \$20,000 cash and \$20,000 in real estate.

"This proposition on the part of the company is extremely liberal," says the Democrat of this city, "and our city could not have asked for better terms than given us by the company."

No part of the bonus money is to be paid to the company until after the road is completed and the cars are in operation. The company agrees to begin work in one year and have the road completed from Tecumseh to this city in two and a half years.

T. B. Hatcher of Frisco, dropped in Monday and added his name to the News list.

W. J. Roddy of Egypt, is planning to eat biscuits from home grown wheat next year. He states that he has thirty-five acres of wheat that looks fine.

Any erroneous reflection on the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will be gladly corrected upon its being brought to the attention of the management.

Obituaries and Resolutions of Respect of less than 100 words will be published free. For all matter in excess of 100 words a charge of one cent per word will be made. Count your words and remit with manuscript.

Say, where is that government weather man who forecasted pretty weather this week?

The News agrees with the opinion often expressed by business and professional men that the art of spelling has retrograded during the past few years. We would like to see more interest in the subject and suggest that there is no better way to stimulate an interest than by means of the old fashioned spelling bee. Perhaps a few years of practice will improve the spelling of some of the careless ones.

Samuel Gompers, president of the American Federation of Labor has been having troubles with the socialists for several years past, delegates of that persuasion never losing an opportunity to inject their political beliefs into the proceedings. The other day Gompers told them in very plain words what he thought of the whole crew, but the chances are that they will yet capture the organization, fire Gompers from the presidency and turn it into a socialistic convention.

The Kansas men under indictment for tarring a popular young lady tried to get a change of venue. The Fort Worth Record suggested that they take the case to Texas. We would like to offer Ada as being a good place to try the gentlemen (?). No doubt about their getting all that is coming to the mif a Pontotoc county jury got hold of them.

The International Harvester Company is today selling its wares on the plains of Russia for twenty percent less than it is selling them in America within sight of the factory. Yet it continually declares that it is an infant industry that must have the protection of the tariff laws in order that it may continue in business. In the face of the fact of its foreign activity, it industriously appeals to congress for continued protection and for increased protection. And the shame of it all is that it has never appealed to a republican congress in vain.

Sooners Preparing for Texas. Norman, Ok., Nov. 21.—The Sooners are back on Boyd field after their victories over Kansas and Missouri, training carefully for the remaining battles on their schedule. The first of these will be with the Northwestern Normal school of Alva on the home grounds. The Normals have been playing a speedy game, running up top-heavy scores against all their opponents played thus far. They are coming to Norman hoping to spring a surprise by defeating Owen's championship aggregation. While the Soon-

ers do not anticipate any difficulty in defeating the visiting contingent, they do look for a hard battle marked by a fierce defensive game on the part of the teachers. This will be the last gridiron contest of the season on Boyd field. Chief interest is centered upon the annual Thanksgiving battle with the university of Texas which is to be played at Austin this year. The Longhorns have been sweeping the South in the way of Oklahoma has been conquering the Missouri Valley. Both teams are admittedly stronger than ever before in their history and a struggle which will live in gridiron annals is certain to result. Oklahoma expects victory by a narrow margin. Red blankets with large white "O's" are to be presented the members of the Sooner team by the girls at the University at the close of the season.

Francis.

Ewell, little son of T. E. Miller, fell from the trapeze at school last week and fractured his right arm between the wrist and elbow. He is reported as doing nicely.

Mrs. Ross, an old lady, fell last Wednesday and fractured the bones in her toes. She has suffered very much but is reported better by her surgeon.

The long wished for water is now in the main as far as the stand pipe and the additional points will soon be put down and the water let into the city. We hope that there will not be another delay for it seems to us that the contractor has consumed too much time trying to do something that has been of no use.

Mrs. J. D. Brewer, of McAlester, has rented the Woodard hotel and is at work repairing and furnishing it and will soon open a first class hotel.

Deputy organizer, Mrs. Ramsey, organized a large class of Royal Neighbors here last Wednesday night. This is a lodge that is an auxiliary to the Modern Woodman of the World.

Potter Henson has moved his family out on the farm that he bought from Rev. Jake Henson some time ago and has sold his property here in town to Sam Murphrey for a consideration of four hundred dollars. We wish Mr. Henson success as a hay seeder.

D. T. Jones, constable of this township, has a gun so long that his neighbors fear it will interfere with his ankle.

J. M. Smith has had men and teams out working this week and last on Main street and Seventh avenue. Judging from the work done Mr. Smith is an old and first class road man.

R. A. Slayback, night switchman, while coupling cars Saturday night, got his wrist caught between the draw heads and the bones were fractured.

Mrs. Monk, wife of L. Monk, died last Saturday from the effect of sep-

tember and was interred in the Denby cemetery Sunday.

R. J. Lewis bought E. T. Jackson's farm of 120 acres one and one half miles west of town, consideration five hundred dollars.

Grandma Baugh, the old lady that broke her arm about ten days ago, is reported much better by her surgeon and that she will recover in the usual time that it takes an old person to get well from a fracture.

Constable D. T. Jones has brought suit in Justice court against the St. Louis and San Francisco Railroad Co. for forty-six dollars wages earned while he served the company as brakeman.

Dr. W. H. Brown and family will go very soon to Tampa, Fla., to spend the winter. The doctor says he wants to get into a country where he can keep warm and have green fresh vegetables Christmas.

We are informed that the additional points have been hauled to the water plant and that the men are now engaged in driving them and that we may except water in a very few days.

ONE MILLION DOLLARS FOR A GOOD STOMACH.

This Offer Should Be a Warning to Every Man and Woman.

The newspapers and medical journals recently have had much to say relative to a famous millionaire's offer of a million dollars for a new stomach.

This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable.

His misfortune serves as a warning to others.

Every one who suffers with dyspepsia for a few years will give everything for a new stomach.

Dyspepsia is commonly caused by an abnormal state of the gastric juices, or by lack of tone in the walls of the stomach. The result is that the stomach loses its power to digest food.

We are now able to supply certain missing elements—to help to restore to the gastric juices their digestive power and to aid in making the stomach strong and well.

We know that Rexall Dyspepsia Tablets are a most dependable remedy for disordered stomachs, indigestion, and dyspepsia.

We want you to try them and will

return your money to you if you are not more than satisfied with the results.

Three sets, 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store—Gwin & Mays Drug Co.

Notice to Sewer Contractors.

Sealed bids will be received at the office of W. B. Jones, City Clerk, Ada, Oklahoma, up to 5 o'clock P. M., Dec. 4th, 1911, for the construction of a lateral sewer in Sewer Dist. No. 4 comprising Blocks 28, 29, 30 and 31 original townsite of the said city of Ada, Oklahoma, according to plans and specifications now on file in the office of the city clerk.

Each bid must be accompanied by a certified check in the sum of ten per cent of the amount bid to be forfeited to the city of Ada in case the successful bidder fails to enter into and give the required bond in the required time.

Contractors will be required to give a bond in the sum of One Hundred per cent of the contract price for the faithful performance of said work and the holding of the city harmless from any and all damages which might occur.

The council reserves the right to reject any or all bids.

(Seal) W. B. JONES, City Clerk.
192-10td—1st Pub. Nov. 16, 1911.

Wunderlich-Cabernet.

Tuesday evening, at 8 o'clock, at the home of G. M. Ramsey, the marriage of John W. Wunderlich and Mme. Juliet Cabernet, late of Hot Springs, Ark., was solemnized. Rev. C. Stubblefield officiating.

The bride is a lady of pleasing manners and refinement, whom any man might be congratulated on winning.

The groom, who has been a resident of Ada for the past five years, is a hard working carpenter, a man who always attends strictly to business and who is deservedly popular with all who know him. Although he was to all appearances one of the confirmed bachelors of Ada it develops that for the past two years he has not been idle in matters looking towards matrimony; and the News extends congratulations on the successful termination of his suit.

We are now able to supply certain missing elements—to help to restore to the gastric juices their digestive power and to aid in making the stomach strong and well.

We know that Rexall Dyspepsia Tablets are a most dependable remedy for disordered stomachs, indigestion, and dyspepsia.

We want you to try them and will

Woman's Nature

It is the nature of women to suffer uncomplainingly, the discomforts and fears that accompany the bearing of children. Motherhood is their crowning glory, and they brave its sufferings for the joy that children bring. No expectant mother need suffer, however, during the period of waiting, nor feel that she is in danger when baby comes, if Mother's Friend is used in preparation of the event. Mother's Friend relieves the pain and discomfort caused by the strain on the different ligaments, overcomes nausea by counteraction, prevents backache and numbness of limbs and soothes the inflammation of breast glands. Its regular use fits and prepares every portion of the mother's

Guthrie Will Get No Rehearing, Oklahoma City, Ok., Nov. 21.—Word has reached here by way of Guthrie that the supreme court of the United States has denied a rehearing upon the petition of Thomas P. Whiteley of that city in the state capital removal case.

The supreme court of the United States, in a majority opinion, held that the state had the right to change its capital, since the inhibition attempted to be placed by congress was not binding. Whiteley drafted a new brief, and through courtesy of one of the Guthrie attorneys, was permitted to file it, with an application for a rehearing. According to information that came from Guthrie today, the petition was denied, which might be said to end that case for all time to come.

Colbert Pickups.

Mr. Duch Rushing got the cake for hemming the best apron Friday night. I wonder if he did hem it. Ho, Ho!

I love you big eyes, but oh, you specs. Ha, ha!

Mr. Sam Rushing has returned home I wonder when he will come back. We will be glad to see him back.

Mr. Duch Rushing was seen walking with a walking cane Sunday.

Miss Allie Merryman was seen at Colbert Sunday night.

Mr. Joe Richman was seen at Colbert Saturday night.

Miss Minta Lea sure did get the cake for tying the best tie Friday night.

Misses Dora Strafford, Minta Lea, Bertha Bishop, Zora Cammel and Ethel Lea were out at singing Sunday evening.

THE BABY.

Petition Finally Turned In.

C. W. Graves, who has been industriously circulating the petition for an election on the adoption of the commission form of government for Ada, decided to turn in the petition when he had secured about 220 signatures, but as a number of others wanted to sign it he took another hitch on it today, and when he finally quit he had 242 names. It looks very favorable for the modern system of government.

Steedman Items.

The mornings are cool on the cotton pickers.

The Steedman Gin Co. is still grinding out cotton.

Rev. Byrd preached his farewell sermon last Monday night. He is going to southwest Texas.

Quite a large number attended Sunday school last Sunday.

P. M. Hughes is having a new P. O. sign put up.

The new feed store and L. O. O. F. hall is looking housie. Laughlin & Campbell are looking for a car of feed.

Mr. Ira King has returned from Arkansas. He says times down there are good, but Oklahoma looks good to him.

Adjusters for the Cochran Gro. Co. and Griffin Produce Co. of McAlester were in Steedman adjusting the stock of goods of Wilson & Scott.

Miss Eula Sully of Spaulding visited the postmaster and wife a day or two last week returning to Ada Friday.

School is progressing nicely under the watchful eye of Miss Mettie Rickets, teacher.

PASTIME.

Joe Sloan of Center, was looking after business matters in Ada Monday.

Because it has the force behind it. Heat Force. Heat force. We will admit slate and rock would be just as good, and maybe better, to throw at tramps as our high-grade coal, but in filling your orders for fuel we have but one thought in mind, and that is to furnish you coal that will burn.

Remember if you get 1500 lbs. of lump coal and 500 lbs. of slack for a ton you have really only 1500 lbs. of coal as the slack is worthless to you we would not let you have slack if you wanted it as we need it for our boilers, so be sure and get our prices before you buy.

In Town After Long Confinement.

M. J. Smoot was in town Wednesday for the first time within sixty days. He has been confined to his bed by a maimed hand. Several months ago he was struck by the hoof of a pig's foot while lifting the animal. The scratch became enlarged by inflammation setting in and blood poison developed. Mr. Smoot, while up, is unable to use his hand and will not be able to use same for several months. We were glad to see him.—Allen Hustler.

KANSAS WOMEN TELLS OF TAR PARTY

Lincoln Center, Kan., Nov. 21.—Miss Chamberlain was at court early today dressed in black. She began her story late this afternoon, after telling of her employment in a store at Shady Bend. She told that Ed Ricord called her up on August 7, saying he wished her to go to a dance with him. She consented, and they started toward Beverly at 8:30 o'clock.

Conduct Was Indecent.

What was his conduct towards you?"

"His remarks were indecent."

She testified that she then told him if he were going to act that way she wished to return that they talked a little and then started back.

"What happened on the way back to town?"

"Five masked men took me from the buggy. Three of them carried me around behind the buggy, threw me down, and smeared tar over my shoulders and lower limbs."

Smeared Tar With Their Hands.

She did not then recognize any of them. During her trouble, Ricord did not help her, she said, although she asked him to. He stood by the fence and looked on. She didn't remember how she got back into the rig. The witness said that not only her shoulders and legs were smeared with tar, but also her breast and arms. Her clothing was ruined, she said. She recognized Clark, Simms and James Bore when passing them on the way back to town. The rough treatment, she said, had made her lame.

In the main, Miss Chamberlain's story told of the pouring of tar on her body by a man, while the others rubbed it in with their hands, and how, by this experience, she became almost unconscious from fright and shame, awakening later to find herself being driven home.

Her story was dramatic for its simplicity. She gave a coherent narrative of the episode in a low, even voice. Not once did she lose her self-control; neither did she speak with feeling against the defendants.

NORMAL NEWS.

The normal quartet sang to a very large and appreciative audience at Francis last night. Something near \$21 was added to the piano fund of the Francis schools as a result of the entertainment.

The chapel hour today was occupied by Dr. Bruce, president of the North Texas State Normal, located at Denton. Dr. Bruce stated that changes were being contemplated in the schools of Texas and he was in Oklahoma studying our system of education.

On the night of Dec. 1, that is, the night after Thanksgiving, the basketball team of the normal will play its first game, Tishomingo High school, the fastest High school team in the southern part of the state will be here. It is said that they have had no other athletics in their school this year and have been devoting their entire time to the training of a basketball team to beat the East Central normal.

Twenty-six counties of Oklahoma and ten states are represented in the enrollment of the normal.

The game between the second team and Holdenville High school has been postponed indefinitely.

Dr. Bruce leaves for his home in Denton today.

The requisition has been obtained and lumber ordered with which to floor the "gym." Although it will not be very large, it will be a great improvement over our present condition.

Durant, Nov. 27th, 3:30 p.m.

Every effort is being made to get a football game for Thanksgiving. Jones's Academy will probably be here. We can't tell yet.

A Warning for Alfalfa Seed Buyers.

There seems to be a great interest developed in alfalfa and the indications are that the acreage will be largely increased by fall and spring seeding this year. The great value of this crop more than justifies this increase. The probabilities are that the majority of people who start the crop for the first time will have to buy their seed.

In purchasing alfalfa seed there are several things which should be guarded against. There are many noxious weeds which are introduced for the first time in this seed. The worst one is dodder. No one under any circumstances should use alfalfa seed which contains the seed of dodder.

Dodder seed is not easily detected by those who are unfamiliar with alfalfa. This seed germinates when planted along with the alfalfa, but soon after it starts to grow, it sends its roots into the alfalfa plant where all of its nourishment is secured, and the first roots which grow will then die. The plant grows in a close twining habit around the alfalfa plants and soon kills them. When a field is badly infested there is only one way to get rid of the dodder, and that is to plow it up.

There seems to be only a small percent of the alfalfa fields in Oklahoma infested with dodder at the present time. Nearly four hundred samples of seed were tested last year and only three samples contained dodder. Probably the best seed in the state was submitted, since the people who take enough interest in the subject to have their seed tested will be the most careful in keeping weeds out.

According to a report recently issued by the Missouri Experiment Station 71.4 per cent of all the samples tested in 1910 contained dodder. To show how rapidly this may increase in a state it would be well to quote their figures for other years. In 1909, 25.77 of the samples tested contained dodder, and 1908, 20 per cent.

It ought to be easy to identify dodder when it is growing in the field and under no circumstances should any grower save seed from a field infested with this plant. Personally we believe that dodder will eventually be the worst weed Oklahoma farmers will have to fight. However, if due caution is taken there is no reason why this weed should gain very rapidly in this state. If it is to be kept out it is absolutely necessary that no alfalfa seed be used which contains dodder seed. Be sure your seed is pure before planting. You cannot afford to take chances with such a pest as dodder.—O. O. Churchill, Department of Agronomy, Oklahoma A. & M. College, Stillwater.

Hot Weather Hurts the Skin.

Poisonous perspiration causes rashes, blisters, pimples and prickly heat, often the beginning of serious skin troubles.

To wash away the poison entirely, apply a simple solution known as D. D. Prescription for Eczema, D. D. D. is generally sold in \$1.00 bottles but for 25c we can now give you enough to prove that the very first drops soothe and heal the inflamed skin as nothing else can.

We vouch for the wonderful properties of D. D. D., for we know that it brings instant relief for all kinds of skin trouble.

GINNERS REPORT SHOWS HEAVY INCREASE

Washington, Nov. 21.—In no previous year has so much cotton been ginned to November 14, as during the present season, the census bureau's report today showing a total of 14,269,986 bales, which is almost a million and a half bales more than was ginned to that date in the record year of 1904.

The feature of today's report, however, was the figures of Georgia, which show 2,103,979 bales had been ginned to November 14. This quantity of cotton is more than ever grown in Georgia before and by the time the final ginning reports are received it will have far surpassed the previous crops of any year. Every cotton state except Mississippi and Oklahoma showed a greater amount of cotton ginned than during the past two years.

While the total was greater than any other year, the amount ginned between November 14 this year was not so large as that ginned last year during that time. Only 1,299,081 bales were ginned this year compared with 1,359,279 bales ginned during the period a year ago.

The census bureau's fifth cotton ginning report of the season, issued at 10 a. m. today and showing the number of running bales, counting round as half bales, of cotton of the growth of 1911 ginned prior to November 14, with comparative statistics to the corresponding date for the past three years, is as follows:

United States, 11,269,986 bales compared with 8,780,433 bales last year, when 75.9 percent of the entire crop was ginned prior to November 14; 8,112,198 bales in 1909, when 80.5 percent was ginned and 9,595,809 bales in 1908, when 73.3 percent was ginned.

Oklahoma, 656,168 bales, compared with 727,654 bales last year, when 79.1 percent was ginned; 476,471 bales in 1909, when 86.2 percent was ginned, and 322,051 bales in 1908, when 46.7 percent was ginned.

Texas, 3,478,802 bales, compared with 2,636,636 bales last year, when 59.4 percent was ginned; 2,104,329 bales in 1909, when 85.2 percent was ginned, and 2,863,528 bales in 1908, when 78.9 percent was ginned.

Between Sherman, McKinney Dallas will be inaugurated about October 8th, 1911.
